Homecoming 2009!

Fall
2009

This year we'll be celebrating our 27th Anniversary and we'd like you to join us for the occasion.

There will be a family picnic at the house starting Saturday at noon.

The 2009 banquet will be held in the Meadows Banquet facility on Saturday evening September 26th. The facility is downstairs in the Meadows mall (same location as Banquet 2006). The banquet will begin at 6 PM with drinks and snack foods. Dinner will be served at 7 PM. Attire will be semi-formal. Cost of the banquet for alumni will be \$30 per person if paid in advance, and \$35 at the door. For actives the price will be \$20 for a single brother and \$30 with a date. Please RSVP if you plan on attending by **Sunday September 13**. Responses should be sent to Allen Snyder at allen.snyder@gmail.com and checks should be mailed to Allen Snyder, 208 W Babbitt St, Dayton, OH 45405 made payable to Delta Sigma Phi ACB. All checks must be received before **Wednesday, September 23, 2009**.

Summer Alumni Project

This summer a group of alumni and a few of the actives that were around the house renovated three rooms in our house. The laundry room, the first floor bathroom, and the dish room. The bathroom and dish rooms both required the removal of the old floor and both were discovered to have their joists cut into. It was evident most in the bathroom were the floor tended to sink if you stood over or around the toilet. Both rooms' support joists were reinforced with 2X10's, re-plumbed, insulated, covered with proper subfloors, and retiled. The Bathroom got a new faucet and toilet which is fat man approved and comfortable. The dish room got a new garbage disposal and sprayer head found in many professional kitchens, as well as additional tiles along the wall to help prevent water damage on the walls. Both rooms have since been sealed, floors, edges, and sinks, and are water tight. The laundry room wall was disintegrating from water damage/leakage from the brick behind it. The wall and rotting wood was removed and replaced by a vapor barrier, insulation and new framing. The drywall has been replaced, and is scheduled to be taped and puttied at the first work party. The weekend went very well and we got a lot accomplished thanks to some dedicated alumni. My thanks go to those that helped and donated so that we could continue improving our house.
